been studying in university. So she considered that she had to learn fast within 3 years.

All of sudden, she met her guy who has a great attitude. Where and when did Estrellita feel that feeling. That man was Rori who was tall, well-built and handsome. Especially his eyes attracted her strongly. When she looked his eyes, she found herself. She felt that he was her destiny. Her husband always support and love her. Time was going and passing time quickly. They had two children who are Buba and Esuu. Estrellita always wants to teach and it was her dream since she finished her university. But she had to look after her children and didn't want to forgot her magic language.

One day her dream came true and she started teaching at school. It was a great beginning of her long journey. After few years teaching at public school her self-esteem had improved a lot and she felt she could set up her own NGO by herself. Luckily she met a few scouts from Germany and they helped to establish Bookbridge in her province. She spent all day at her center and put herself into her work. She could establish her training center also she could do what she wanted to do. Still Rori had been supporting her wife many different ways and he loved Bookbridge a lot. Life was pitiless for Estrellita. She lost her husband in a car accident. It was like she stuck in the dark. She did not want to feel something. She only wanted her happy life to back. She stayed with her 2 kids pitifully. But she knew one thing it was her strong will. She just wants to go ahead nonstop. A lot of local people and kids loved her and respected her. So this love made her stronger and stronger. Even she wanted to focus on her work well and work hard.

She wished, her 2 children would be happy. She did everything such as giving them sweetmeat, toys and other things. But those things could not take the place of their father. They knew only one thing which is going on living together. Because all of them knew life rewards back if we do our best. And they had been gotten over their scars little by little and step by step.

This is now time. The affliction was over. Time will help to people to get over. The sun is shining for them to make them smile. The wind is blowing for them to make them feel alive. Estrellita had a lot of good students and worked so much to live nicely. She did many things to their students such as teaching them English, how world is huge to live and how life is beautiful. Her thousands strong students of her are standing behind of her! Her positive attitude made us positive young ones! Whole community knew her real story and she was always tries to support community and develop youth. I knew she was one of the woman of the year, was awarded by Mongolian government awards a few times.

And the 2 children grow well who are good tempered, easygoing, helpful and patient. She met a man whose name is Hero. She knew that very well God gave her a gift which was Hero. She lived with him together and had a little girl who is Rainbow . From now life is going forever...
